WEBSITE

Only the right product prevents problems: Always check www.putoline.com for professional lubricant advice!

Pulling a tin of oil just like that from the shelf and expecting that by chance, the oil is suitable for your application is no longer altogether true. Technically too many things have changed, e.g. engines become more powerful and fuel consumption and emission levels have to be minimised. This has a large impact on the lubricants industry, since new technological developments often as for new specially developed lubricants. Lubricants have become "construction parts". Using the right lubricant is more important than ever!

4 - STROKE

NANO TECH 4+

A 100% synthetic 4-stroke engine oil containing Putoline Oil's revolutionary Nano Tech additive system. Suitable for extreme race conditions.

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 5W40, 10W40, 10W50, 15W50

Specifications: JASO MA2, API SL

ESTER TECH SYNTEC 4+

A 100% synthetic 4-stroke competition engine oil containing Putoline Oil's "pure bike" Ester Tech additive system.

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 10W30, 10W40, 10W50, 10W60, 15W50

Specifications: JASO MA2, API SL

SPORT 4

Semi-synthetic 4-stroke road and touring motorcycle engine oil with Technomoto additive system

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 10W40, 15W50, 20W50

Specifications: JASO MA2, API SL

SUPER DX 4

Semi-synthetic 4-stroke engine oil for road going motorcycles

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 10W40, 20W50

Specifications: JASO MA, API SG

FORMULA V-TWIN

Semi-synthetic 4-stroke V-Twin engine oil with Technomoto additive system

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 20W50

Specifications: JASO MA, API SG

ESTER TECH RS 959

100% synthetic injector and pre-mix 2-stroke oil for road and off road motorcycles with "pure bike" Ester Tech and MRH additive system

Available packaging: 1L

Specifications: JASO FD/API TC+/ISO-L-EGD/TISI/Piaggio Hexagon

TTX INJECTOR

100% synthetic injector and pre-mix 2-stroke oil for road motorcycles

Available packaging: 1L, 20L & 60L

Specifications: JASO FD/API TC+/ISO-L-EGD/TISI/Piaggio Hexagon

TT SPORT

Synthetic injector and pre-mix 2-stroke oil for road motorcycles

Available packaging: 125ml, 1L, 4L, 20L & 60L

Specifications: JASO FD/API TC/TISI

TT LIGHT

Synthetic injector and pre-mix 2-stroke oil for road motorcycles

Available packaging: 1L, 4L, 20L & 60L

Specifications: JASO FD/API TC/TISI

GEAR OILS

SUSPENSION FLUIDS

RACING OIL

Pure finest quality castor 2-stroke oil. Can be mixed with high octane racing fuel, methanol, nitromethane as well as conventional fuel

Available packaging:
1L & 20L

NANO TRANS GP RS 75

Synthetic transmission oil for competitive Grand Prix 2-stroke and 4-stroke containing Putoline Oil's revolutionary Nano Tech additive system

Available packaging:
1L

Available viscosities:
75W

Specifications:
API GL-1 - 3

SP GEAR OIL

Synthetic, high quality Total Drive Line gear oil, for gearbox, final drive and differential of modern motorcycles (road & off road), scooters and quads.

Available packaging:
1L

Available viscosities:
75W90

Specifications:
API GL-3/4/5

GEAR HEAVY EXTRA

High quality gear oil utilising EP (extreme pressure) additives, recommended for all shaft drive units where SAE 84W140 is specified

Available packaging:
20L

Available viscosities:
85W140

Specifications:
API GL-5 / MIL-2105D

GP 10 & GP 80

Motorcycle off road and racing gearbox oil

Available packaging:
1L, 4L(GP 10), 20L, 60L & 200L

Available viscosities:
75W (GP 10) & 80W (GP 80)

Specifications:
API GL-4

GEAR LIGHT & MEDIUM

Mineral motorcycle road and off road gearbox oil

Available packaging:
1L, 4L(Light), 20L & 60L

Available viscosities:
75W (Light) & 80W (Medium)

Specifications:
API GL-1

GEAR HEAVY

Mineral motorcycle final-drive oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
80W90

Specifications:
API GL-5

FORMULA GP

Special blend motorcycle racing front fork oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
2.5, 5, 7.5 & 10

1 ROAD

SUSPENSION FLUIDS

HPX

Synthetic front fork oil

Available packaging:
1L, 20L & 60L

Available viscosities:
2.5, 5, 7.5, 10, 15,
20 & 30

GPR 6

Synthetic rear shock absorber oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
2.5 & 3.5

FORK OIL LIGHT, MEDIUM & HEAVY

Mineral front fork oil

Available packaging:
500ml & 20L

Available viscosities:
SAE 5 (Light), 10
(Medium) & 20 (Heavy)

2 OFF ROAD

4 - STROKE

OFF ROAD NANO TECH 4+

A 100% synthetic 4-stroke engine oil containing Putoline Oil's revolutionary Nano Tech additive system. Suitable for extreme conditions.

Available packaging:
1L, 4L, 20L, 60L & 200L

Available viscosities:
10W40, 10W50,
10W60, 15W50

Specifications:
JASO MA2, API SL

ESTER TECH OFF ROAD 4+

A 100% synthetic 4-stroke off road motorcycle engine oil containing Putoline Oil's "pure bike" Ester Tech additive system.

Available packaging:
1L, 4L, 20L, 60L & 200L

Available viscosities:
10W40, 10W50,
10W60, 15W50

Specifications:
JASO MA2, API SL

OFF ROAD 4

Synthetic 4-stroke off road motorcycle engine oil with Technomoto additive system

Available packaging:
1L, 4L, 20L, 60L & 200L

Available viscosities:
10W40, 10W60,
15W50

Specifications:
JASO MA2, API SL

SPEEDWAY BLUE

Pure finest quality castor 4-stroke speedway oil. Mixable with high octane racing fuel, methanol, nitromethane and conventional fuel

Available packaging:
1L

ESTER TECH MX9

100% synthetic 2-stroke pre-mix off road motorcycle oil with "pure bike" Ester Tech and MRH additive system

Available packaging:
1L & 20L

Specifications:
JASO FD/API TC+/
ISO-LEGD

MX 7

100% synthetic 2-stroke pre-mix off road motorcycle oil with MRH additive system

Available packaging:
125ml, 1L, 4L, 20L
& 60L

Specifications:
API TC+ / ISO-LEGD

GEAR OILS

TT TRIAL PRO SCENTED

Synthetic 2-stroke oil for competition trial bikes. A strawberry scented pre-mix oil with MRH additive system

Available packaging:
1L

Specifications:
JASO FD/API TC/TISI

MX 5

Synthetic 2-stroke oil for competition off road motorcycles. Pre-mix oil with MRH additive system

Available packaging:
1L, 4L & 20L

Specifications:
API TC/ JASO FD

NANO TRANS GP

Synthetic transmission oil for competitive Grand Prix 2-stroke and 4-stroke containing Putoline Oil's revolutionary Nano Tech additive system

Available packaging:
1L

Available viscosities:
75W

Specifications:
API GL-1 - 3

RS 75

100% synthetic motorcycle off road and racing gearbox oil

Available packaging:
1L

Available viscosities:
75W80

Specifications:
API GL-4/5

SP GEAR OIL

Synthetic, high quality Total Drive Line gear oil, for gearbox, final drive and differential of modern motorcycles (road & off road), scooters and quads.

Available packaging:
1L

Available viscosities:
75W90

Specifications:
API GL-3/4/5

GP 10 & 80

Motorcycle off road and racing gearbox oil

Available packaging:
1L, 4L(GP 10), 20L, 60L & 200L

Available viscosities:
75W (GP 10) & 80W (GP 80)

Specifications:
API GL-4

GEAR LIGHT & MEDIUM

Mineral motorcycle road and off road gearbox oil

Available packaging:
1L, 4L(Light), 20L & 60L

Available viscosities:
75W (Light) & 80W (Medium)

Specifications:
API GL-1

GEAR HEAVY

Mineral motorcycle final-drive oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
80W90

Specifications:
API GL-5

ATF

Mineral motorcycle off road gearbox oil

Available packaging:
1L, 20L & 60L

Specifications:
Dexron IID

2 OFF ROAD

SUSPENSION FLUIDS

FORMULA GP

Special blend motorcycle racing front fork oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
2.5, 5, 7.5 & 10

HPX

Synthetic front fork oil

Available packaging:
1L, 20L & 60L

Available viscosities:
2.5, 5, 7.5, 10, 15,
20 & 30

GPR 6

Synthetic rear shock absorber oil

Available packaging:
1L, 20L, 60L & 200L

Available viscosities:
2.5 & 3.5

ACTION KIT

Contains all products required to clean and pre-oil foam filters

Available packaging:
Kit contents: 1x 10L
Action Cleaner prep-bucket, 1x air filter rack, 1x 4L Action Cleaner, 5x gloves, 1x 3L Action Fluid prep-bucket, 1x 1L Action Fluid, 1x 10 gram Ceramic Grease

ACTION FLUID

Worlds #1 genuine foam air filter oil

Available packaging:
600ml & 1L

ACTION FLUID BIO

Worlds #1 genuine biodegradable foam air filter oil

Available packaging:
600ml & 1L

ACTION CLEANER

Fast acting in water soluble foam air filter cleaner

Available packaging:
600ml, 1L, 4L & 60L

ACTION CLEANER BIO

Fast acting in water soluble biodegradable foam air filter cleaner

Available packaging:
4L

3L PREP-BUCKET

Plastic prep-bucket complete with lit. 3 liters

3 SCOOTER

4 - STROKE

2-STROKE

10L PREP-BUCKET

Plastic prep-bucket complete with lit. 10 liters

ESTER TECH SCOOTER 4T+

100% synthetic 4-stroke scooter engine oil containing Putoline Oil's "pure bike" Ester Tech additive system

Available packaging: 125ml, 1L, 4L, 20L, 60L & 200L

Available viscosities: 5W40

Specifications: JASO MA2, API SL

SCOOTER 4T (TECHNO)

Synthetic 4-stroke scooter engine oil with Technomoto additive system

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 5W40

Specifications: JASO MA, API SG

SCOOTER 4T

Semi-synthetic 4-stroke scooter engine oil

Available packaging: 1L, 4L, 20L, 60L & 200L

Available viscosities: 10W40

Specifications: JASO MA

ESTER TECH RS 959

100% synthetic injector and pre-mix 2-stroke scooter oil with "pure bike" Ester Tech and MRH additive system

Available packaging: 1L

Specifications: JASO FD/API TC+/ISO-L-EGD/TISI/Piaggio Hexagon

TT SCOOTER +

100% synthetic injector and pre-mix 2-stroke scooter oil

Available packaging: 1L, 4L, 20L, 60L & 200L

Specifications: JASO FD/API TC+/ISO-L-EGD/TISI/Piaggio Hexagon

TT SCOOTER + SCENTED

100% synthetic injector and pre-mix 2-stroke scooter oil with strawberry essence

Available packaging: 1L

Specifications: JASO FD/API TC+/ISO-L-EGD/TISI/Piaggio Hexagon

TT SCOOTER

Synthetic low smoke injector and pre-mix 2-stroke scooter oil

Available packaging: 125ml, 500ml, 1L, 4L, 20L, 60L & 200L

Specifications: JASO FD/API TC/TISI

TT SCOOTER SCENTED

Synthetic low smoke injector and pre-mix 2-stroke scooter oil with strawberry essence

Available packaging: 1L, 4L & 20L

Specifications: JASO FD/API TC/TISI

3 SCOOTER

4 QUAD

2-STROKE

GEAR OILS

SUSPENSION FLUIDS

4-STROKE

TT LIGHT

Synthetic injector and pre-mix 2-stroke oil for road motorcycles

Available packaging:
1L, 4L, 20L & 60L

Specifications:
JASO FD/API TC/TISI

CLASSIC SCOOTER-X

Synthetic 2-stroke oil for classic and modern scooters with Putoline Oils "pure bike" Ester Tech additive system. Toolbox size bottle!

Available packaging:
1L

Specifications:
API TC, JASO FD,
ISO-LEGD

SPECIAL SCOOTER GEAR OIL

Synthetic scooter gear oil

Available packaging:
125ml

Available viscosities:
75W90

Specifications:
API GL-5

SCOOTER GEAR OIL SAE 30 & SAE 90

Mineral scooter gear oil SAE 30 & 90

Available packaging:
500ml, 1L & 20L

Available viscosities:
SAE 30 & 90

Specifications:
API SF/CC for SAE 30
API GL-1 for SAE 90

SPECIAL MOPED GEAR OIL

Mineral moped gear oil

Available packaging:
500ml

Available viscosities:
10W30

Specifications:
API SF/CC

HPX

Synthetic front fork oil

Available packaging:
1L, 20L & 60L

Available viscosities:
2.5, 5, 7.5, 10, 15,
20 & 30

FORK OIL LIGHT, MEDIUM & HEAVY

Mineral front fork oil

Available packaging:
500ml & 20L

Available viscosities:
SAE 5 (Light), 10
(Medium) & 20 (Heavy)

ESTER TECH QUAD RF4+

100% synthetic 4-stroke quad engine oil with Ester Tech additive system

Available packaging:
1L & 20L

Available viscosities:
10W40

Specifications:
JASO MA2/API SL

QUAD RF 4

Synthetic 4-stroke quad engine oil with Technomoto additive system

Available packaging:
1L & 20L

Available viscosities:
10W40

Specifications:
JASO MA2/API SL

FARM ATV OIL

Synthetic-fortified 4-stroke quad engine oil

Available packaging:
1L & 4L

Available viscosities:
15W40

Specifications:
API SJ/CH 4

SP GEAR OIL

Synthetic, high quality Total Drive Line gear oil, for gearbox, final drive and differential of modern motorcycles (road & off road), scooters and quads.

Available packaging:
1L

Available viscosities:
75W90

Specifications:
API GL-3/4/5

GEAR HEAVY EXTRA

High quality gear oil utilising EP (extreme pressure) additives, recommended for all shaft drive units where SAE 85W140 is specified

Available packaging:
20L

Available viscosities:
85W140

Specifications:
API GL-5 / MIL-2105D

ESTER TECH RS 959

100% synthetic injector and pre-mix 2-stroke scooter oil with "pure bike" Ester Tech and MRH additive system

Available packaging:
1L

Specifications:
JASO FD/API TC+/ ISO-LEGD/TISI/Piaggio Hexagon

KART TECH 2

Synthetic 'top competition' pre-mix 2-stroke kart oil

Available packaging:
1L

KART 2

Pure finest quality castor pre-mix 2-stroke oil with additives

Available packaging:
1L

SNOW 4T+

100% synthetic 4-stroke snowmobile engine oil

Available packaging:
1L

Available viscosities:
0W40

Specifications:
JASO MA/API SL

TT AQUA

Synthetic injector and pre-mix 2-stroke jetski oil

Available packaging:
1L, 20L & 60L

Specifications:
API TC+/NMMA BIA TCW-3

CHAIN WAX

Traditional chain cleaner & lubricant with graphite for non O-ring (open MX) chains

Available packaging:
1KG

Available viscosities:
NLGI 4

7 CHAIN LUBRICANTS

DESERT CHAINLUBE PTFE

Sand repellent rally raid racing chain lube provides protective coating and non-fling finish. For standard, O-ring & X-ring chains

Available packaging:
750ml aerosol

TECH CHAIN SPRAY

Ceramic grease/wax based chain lubricant in aerosol, for O-ring and X-ring chains

Available packaging:
500ml aerosol

O-RING SPRAY

Synthetic chain lubricant in aerosol for O-ring & X-ring chains

Available packaging:
500ml aerosol

DX 11 SPRAY

Synthetic chain lubricant in aerosol for open MX-chains

Available packaging:
500ml aerosol

CHAIN&ENGINE DEGREASER

Fast acting water soluble degreaser removes heavy oil and grease deposits from chain, sprockets, engine parts and frame

Available packaging:
500ml aerosol & 1L tin

DIRT BIKE SUPER CLEANER

Highly concentrated biodegradable off road bike cleaner, removes mud, sand, grease and general grime from plastic and metal parts

Available packaging:
1L trigger bottle, 4L, 20L & 200L

CONTACT CLEANER SPRAY

Cleans and degreases spark plugs, contact breakers and electrical components

Available packaging:
500ml aerosol

PUT OFF

Ultra efficient total cleaner, containing the revolutionary nanotech components. Also suitable for the most sensitive surfaces

Available packaging:
1L & 5L

BRAKE CLEANER SPRAY

Strong fast acting spray for cleaning and degreasing for all brake parts, such as master cylinders, callipers and disks

Available packaging:
500ml aerosol & 25L

8 CARE PRODUCTS

CLEANERS & DEGREASERS

CARBURETTOR CLEANER SPRAY

A complex mix of special solvents removes varnish and gum deposits from choke valves, needle valves and jets

Available packaging:
500ml aerosol

PENETRATING 1001 SPRAY

Multi-purpose strong penetrating lubricant and protection spray that displaces water and protects all metal parts against corrosion

Available packaging:
500ml aerosol

SILICON SPRAY

Restores colour to showroom-like finish to a wide variety of plastics and painted surfaces and revitalises rubber parts

Available packaging:
500ml aerosol

PTFE CABLE GUARD

Multi purpose high performance lubricant. It provides long-term lubrication even under extreme pressure and heavy load

Available packaging:
500ml aerosol

HYDRAULIC CLUTCH FLUID

Mineral hydraulic oil with additives to provide good clutch lever response under all circumstances

Available packaging:
100ml

COOLANT NF

New generation organic coolant suitable for modern cooling systems. Safe for rubber, plastic, metals

Available packaging:
1L, 4L, 20L, 60L & 200L

ICE COOLER

Silicate free coolant with nanotechnology and Mono Propylene Glycole. Prevents engine overheating and reduces operating temperatures

Available packaging:
2L

BATTERY ACID

Suitable acid for all battery initial filling

Available packaging:
1L

PPF-52

Protects against corrosion and revitalizes all metal and plastic parts

Available packaging:
500ml aerosol

8 CARE PRODUCTS

POLISHES

GREASES

BRAKE FLUIDS

FUEL ADDITIVES

RS1 WAX POLISH SPRAY

Silicon free foam wax polish with carnauba wax creates a long lasting deep shine to all painted surfaces

Available packaging:
500ml aerosol

RACING GREASE

A blue coloured special high quality EP2 lithium complex grease. It has excellent mechanical stability and is waterproof.

Available packaging:
600gr

Specifications:
N.L.G.I. 2, DIN 51502
KP2N-30

WHITE ACTION GREASE + PTFE

A universal, colourless lubricant with special PTFE additives. Suitable for e.g. wheel bearings and axles.

Available packaging:
600gr

Specifications:
N.L.G.I. 2, DIN 51502
KP2N-20

CERAMIC GREASE

An extremely high quality anti-seize paste and high temperature, high pressure lubricant.

Available packaging:
600gr

URBF

Ultimate Racing Brake Fluid for motorcycle competition use. Dry boiling point: > 315 °C. Suitable when DOT 4 and DOT 5.1 is recommended

Available packaging:
500 ml

Specifications:
SAE J 1703, ISO 4925,
FMVSS 116 DOT 4

DOT 5.1 BRAKE FLUID

Synthetic racing and high performance brake fluid with dry boiling point of 265°C

Available packaging:
500 ml

Specifications:
SAE J 1704, ISO 4925,
FMVSS 116 DOT 5.1

DOT 4 BRAKE FLUID

Synthetic high performance brake fluid with dry boiling point of 260°C

Available packaging:
500 ml & 1L

Specifications:
SAE J 1703, ISO 4925,
FMVSS 116 DOT 4

DOT 5 SILICON BRAKE FLUID

Silicon racing and high performance brake fluid with dry boiling point of 265°C. Suitable where a silicon brake fluid is specified

Available packaging:
500 ml

Specifications:
SAE J 1703F, ISO 4925,
FMVSS 116 DOT 5,
MIL-B-46176

FUEL CONDITIONER

Cleans, protects and lubricates the complete fuel system, removes deposits from carburettors, injectors, valves and combustion chambers

Available packaging:
325 ml

9 ACCESSORIES

LEATHER TREATMENT

FUEL STABILIZER

Prevents the forming of fumes and varnish (petrol oxidation) when storing your motorcycle or quad for long periods

Available packaging:
325 ml

FUEL INJECT & VALVE CLEANER

A professional petrol additive for cleaning petrol injection systems. This product improves the engine power output and reduces fuel consumption.

Available packaging:
325 ml

OCTANE BOOSTER

Lead-free octane improver that increases engine efficiency, optimises combustion performance and horsepower output

Available packaging:
1L

LEATHER WAX

Protects and revitalises all coloured and non-coloured leathers old or new

Available packaging:
200gr

HAND CLEANER

A lemon scented hand cleaner that removes all types of grease, oil and dirt without damaging your skin

Available packaging:
600gr & 4.5KG

SUNCREAM

Suncream, SPF 25.

Available packaging:
5ml

STICKERS

Various dimensions of high quality stickers for road bikes and special strong adhesive thick material for off road

Available in diamond and strap forms

POLO SHIRT

High quality, trendy sports shirt

Available sizes: S, M, L, XL & XXL

RACE OVERALL

High quality navy blue race overall with Putoline Oil logos on chest and one leg

Available sizes: S, M, L, XL

9 ACCESSORIES

NEO JACKET

Comfortable jacket with fleece lining

Available sizes: S, M, L, XL(men)/ XS, S, M(women)

GP RACE CAP

Top quality cotton cap

Available size: One size fits all

WINDOW LIGHT

Illuminated internal shop sign (220V)

Available dimensions: 100 x 500cm

SHOWROOM BANNER

Large blue and yellow banner constructed of paper and fabric type material. Ideal for shows and showrooms

Available dimensions: 100 x 500cm

OUTDOORS TRACK BANNER

Large blue and fluorescent yellow banner, ideal for track advertising

Available dimensions: 80 x 690cm

OUTDOORS START&FINISH BANNER

Large blue and fluorescent yellow banner with START and FINISH displayed, ideal for motocross events

Available dimensions: 80 x 590cm

PIT FLAGS

Blue and yellow flag with diamond logo

Available dimensions: 100 x 150cm

TRACK TAPE

High quality track tape

Available dimensions: 250m

SUNGLASSES

Bertoni sport glasses represent the latest technology for material, protection, visual comfort and design.

Available size: One size fits all

KEYCORD

Putoline Oil keycord

DISPLAY

Point-of-sale display for exhibition or use in the showroom

ROLL UP DISPLAY

Roll up display for exhibition or use in the showroom, picturing the Putoline Oil point-of-sale display

Available sizes: 84 x 220cm

ROLL UP DISPLAY

Roll up display for exhibition or use in the showroom, picturing women: We want you...

Available sizes: 84 x 220cm

BEACH FLAG

Extremely strong, high quality beach flag to decorate your event

Available dimensions: 75 x 314cm

MECHANICS MAT

FIM-approved mechanics mat

Available dimensions: 200 x 100cm

PLASTIC BAG

Putoline Oil plastic carrier bag

10 SYMBOLS

NANO TECH ADDITIVE SYSTEM

Putoline Oil Nano Tech motorcycle oils, Road and Off Road, are based on the latest revolutionary technology: Nanotechnology. Putoline Oil has taken the next step in lubrication technology by introducing this new product line. Nano Tech motor oils offer guarantee full compatibility with modern clutch friction materials and provide unparalleled clutch engagement. It also guarantees outstanding wear protection for the engine and transmission, even under demanding race conditions.

ESTER TECH ADDITIVE SYSTEM

Putoline Oil Ester Tech motorcycle oils are developed especially for modern high-performance motorcycles, Road and Off Road. The Ester Tech Technology, developed and tested successfully in close cooperation with renowned racing teams, ensures a tremendously strong oil film, improved transmission and motor protection, exceptionally good "stay in grade" features and extremely low oil consumption. Because of the constant temperature features and the improved additives package, wear and tear is prevented more efficiently, even during critical cold starts.

TECHNOMOTO ADDITIVE SYSTEM

Technomoto Additive System is the first 4-stroke motor oil technology introduced by Putoline Oil. Motorcycle engines faced a lot of problems being lubricated by "normal" automotive motor oils, like "clutch slip", cam lobe pitting" and excessive "gear train wear". The pure bike Technomoto Additive Technology was and still is the solution for these problems.

MRH ADDITIVE SYSTEM

In addition to Technomoto, Putoline Oil introduced the 2-stroke MRH Additive System. The main purpose of this Additive system is more power, cleaner- more efficient burning and exceptional engine protection. MRH Additive System also guarantees high rev and temperature stability, exceptional film and shear strength, reduction in fuel consumption, no deposit build up on piston rings, power valve and exhaust system, excellent throttle response (even in wet conditions), long term optimised engine reliability and improved starting quality. MRH is race proven in lubricant technology. We borrowed the initials MRH in memory and out of respect for Mark Richard Hood, Managing Director of Putoline Distribution Ltd. (UK) and Director of Putoline Oil B.V. (Holland). Mark died 28 April 2001 enjoying one of the things he loved most: riding bikes. Mark, you will always be in our minds!

THE PREMIERE SELECTION

The Putoline Oil Premiere logo defines the product as the very best in its range. It signifies Putoline Oil's outstanding attention to detail in product development, production techniques and consumer focus. These are the highest quality products in the range.

THE BIODEGRADABLE SELECTION

The Biodegradable selection logo defines those products that are biodegradable and therefore have the ability to break down safely and relatively quickly, by biological means, into the raw materials of nature and disappear into the environment.

STRAWBERRY SCENTED

Has the world gone completely mad?

Strawberry scented 2-stroke oil? This logo stands for unparalleled engine protection by utilising special synthetic additives distinguished by its totally unique strawberry fragrance. Heads will turn when you pass on the street; all of a sudden there is a breath of fresh air.

Part.nr.: 80122

Putoline Oil
P.O. Box 149 - 7600 AC Almelo - The Netherlands
