RMS
YOUR BEST PARTNER

IL MIGLIOR PARTNER PER LE MIGLIORI PRESTAZIONI

RMS è un'azienda leader all'interno del panorama europeo per quanto riguarda la distribuzione di ricambi ed accessori per bici e scooter, che propone un'offerta completa rivolta a produttori e rivenditori di entrambi i settori.

Si avvale di partnership consolidate con i maggiori produttori mondiali, che garantiscono un ventaglio di prodotti all'avanguardia in un settore estremamente competitivo ed in continua evoluzione.

La soddisfazione del cliente rappresenta da sempre una delle principali priorità: nel perseguirla RMS utilizza sistemi logistici innovativi e tecnologie avanzate, affiancandole ai classici strumenti di divulgazione diretta, come i cataloghi in versione cartacea e digitale. Customer Satisfaction significa inoltre una presenza capillare sul territorio, grazie ad una rete di agenti in contatto diretto sia con il cliente che con la sede centrale, in grado per questo di rispondere prontamente a qualsiasi evenienza, di snellire le procedure e di completare in tempi brevi le pratiche di raccolta ed evasione degli ordini.

Tutti i clienti RMS hanno la possibilità di accedere ad un'area riservata su www.rms.it. Uno strumento completamente dedicato alle loro esigenze, tramite cui gestire e monitorare gli ordini, visualizzare le disponibilità, ricevere ed elaborare statistiche ed informazioni e raccogliere i relativi documenti in assoluta sicurezza.

Le catene di distribuzione **KMC** sono prodotte in modo accurato grazie all'utilizzo di materiale di alta qualità, a metodi di stampaggio avanzati ed a speciali trattamenti termici delle piastre. Queste procedure ottimizzano l'area di contatto tra le piastre della catena e le ruote dentate, aumenta la resistenza a fatica della catena assicurando una diminuzione del rumore di funzionamento. Queste qualità rendono le catene di distribuzione **KMC** una buona alternativa al ricambio originale per qualità, durata e prezzo.

KMC timing chains are precisely fabricated with an high grade alloy material, with advanced stamping method and exclusive heat-treatment for link plates. It maximize contact area between links and sprocket for a better chain strength, impact resistance and low running noise. These properties make KMC timing chains a good option of OEM timing chains in terms of quality, like and price.

The background of the entire image is a repeating pattern of various mechanical and automotive icons in a light gray color. These icons include a motorcycle, a battery with a lightning bolt, a wrench and screwdriver, a piston, a gear, a bolt, a nut, a tire, a wheel, and a bolt with a nut. The icons are arranged in a grid-like fashion, creating a textured, industrial feel.

CATENE TRASMISSIONE SIGILLATE CON O-RING - O-RING SEALED DRIVE CHAINS

CATENA TRASMISSIONE SIGILLATA CON O-RING

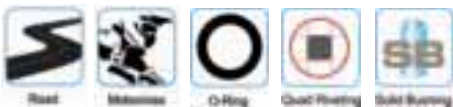

Il disegno specifico delle catene sigillate KMC rende costante la lubrificazione prolungando la vita della catena stessa. La lega d'acciaio di qualità superiore e i trattamenti termici garantiscono una maggiore resistenza alle sollecitazioni. Inoltre, lo speciale grasso contenuto dagli anelli di tenuta, mantiene costante la lubrificazione ed elimina l'attrito durante il funzionamento, garantendo un'usura minore ed una vita della catena prolungata nel tempo.

O-RING SEALED DRIVE CHAIN

Specific design of sealed-in lubrication allows KMC sealed chain to have a longer and optimum life. Superior alloy steel and heat-treatment provides better performance in strength. In addition, special formulated grease retained by sealants ring, keeps a constant lubrication eliminating friction and prolonging chain life.

The background of the entire page is a repeating pattern of various mechanical and automotive icons in a light gray color. These icons include a motorcycle, a battery with a lightning bolt, a wrench and screwdriver, a piston, a gear, a bolt, a nut, a tire, a wheel, and a bolt with a nut. The icons are arranged in a grid-like fashion, creating a textured, industrial feel.

PERCHÉ SCEGLIERE LI-ON BATTERY?

Lo speciale metodo costruttivo delle batterie **LI-ON** permette di avere una batteria con un rapporto prestazioni/volume.

Per facilitare il montaggio della batteria senza intervenire sul cablaggio elettrico o creare problemi di corretto alloggiamento e fissaggio, le batterie **LI-ON** sono dotate di appositi distanziali modulari che consentono di raggiungere le dimensioni della batteria standard che si sostituisce.

Ciò permette prestazioni eccezionali, peso contenuto e facile installazione evitando soluzioni approssimative di fissaggio e di realizzazione come nel caso di batterie al litio oggi in commercio.

Le batterie **LI-ON** garantiscono una notevole versatilità per applicazioni sia racing che custom e possono essere ricaricate usando l'apposito caricabatterie **LI-ON**.

WHY CHOOSE LI-ON BATTERY?

*The special construction method of **LI-ON** allows you to have a battery with an excellent performance /volume and high versatility. It's very easy to assembly*

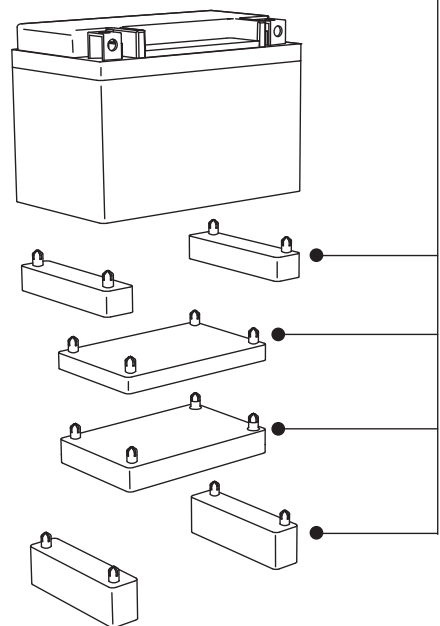

LI-ON batteries.

*Without changing the electrical wiring system or create problems for proper housing, the **LI-ON** batteries are equipped with special modular spacers which allow to reach the same dimensions as the standard battery that you are replacing.*

This means exceptional performances, low weight and easy installation avoiding imprecise solutions for fixing and construction as in the case of lithium batteries today on the market.

LI-ON provide considerable versatility for both racing and custom applications and can be recharged with dedicated charger by **LI-ON**.

RELÈ TEMPORIZZATO PER FARI XENON - TIMER RELAY FOR XENON LIGHTS

Dispositivo che ritarda l'accensione dei fari nella fase all'avvio del motociclo, riducendo al minimo l'assorbimento di energia della batteria, per garantire una maggiore affidabilità nella messa in moto del veicolo.

Il timer chiude il circuito verso le luci 15 o 25 secondi dopo l'accensione del veicolo con interruttore luci in posizione di OFF.

Il dispositivo non è compatibile con motocicli dotati di una singola lampada utilizzata come luce anabbagliante/ abbagliante.

Starting a Motorcycle when the Lights are switched on, will drain power from the Battery very quickly. For optimal power consumption Motorcycles should be started with the Lights switched off.

This timer close the circuit to the Lights 15 or 25 seconds after the ignition is activated by setting the "lights switch" to OFF.

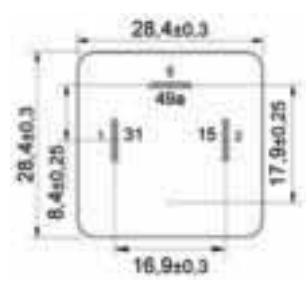

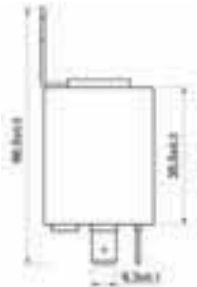

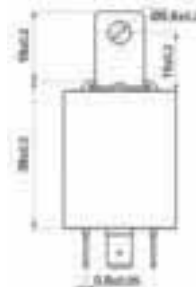

Device not compatible with motorbikes using single bulb serving as low beam/ high beam light.

- 1) I prodotti inclusi nei cataloghi sono di normale vendita. Agli stessi potranno essere apportate modifiche e varianti al fine di migliorare la funzionalità. Le illustrazioni e le caratteristiche tecniche rappresentate nei cataloghi pertanto non sono vincolanti. Tutti i Riferimenti Originali sono di proprietà esclusiva delle case produttrici.
- 2) I prezzi esposti nei listini non sono impegnativi, in quanto potranno essere aggiornati in qualunque momento, per intervenute variazioni dei relativi costi.
- 3) Gli ordini verranno evasi secondo la disponibilità del momento senza garanzie di saldo. Eventuali rimanenze saranno inviate appena disponibili, salvo che vengano annullate dal committente al ricevimento della prima spedizione.
- 4) La merce viaggia a rischio e pericolo del committente anche se venduta Franco Fabbrica.
- 5) Il pagamento della fornitura deve essere effettuato esclusivamente presso la sede del venditore, con le modalità ed entro i termini stabiliti al perfezionamento del contratto di vendita. L'eventuale emissione di tratte o di ricevute bancarie non comporta deroga del luogo di pagamento. In caso di ritardato pagamento di una o più forniture decorreranno a carico del compratore gli interessi secondo il tasso praticato dalle banche sugli scoperti di conto corrente. Il mancato o ritardato pagamento di una fornitura ci autorizza a ritenerci liberi da qualsiasi impegno e a ritenere annullati tutti i contratti di vendita in corso. Non sono accettati pagamenti con rimesse dirette. Per i nuovi clienti il pagamento dei primi ordini dovrà avvenire esclusivamente con bonifico bancario anticipato o in contrassegno.
- 6) Resi per errata ordinazione od errata spedizione saranno accettati solo se giustificati ed effettuati entro 15 (quindici) giorni dalla consegna della merce, comunque, preventivamente autorizzati da **RMS s.p.a.** inviando una mail a **logistica@rms.it**. Resi non precedentemente autorizzati dalla nostra Società o non accompagnati da documento di trasporto che deve recare gli estremi del nostro DDT o della ns. fattura di vendita non saranno accettati e di conseguenza saranno rinviati al mittente. - 7) Tutti i prodotti sono garantiti da regolare costruzione e funzionalità. L'eventuale restituzione di prodotti ritenuti difettosi dovrà essere preventivamente concordata con il venditore ed inviata in Porto Franco alla **RMS s.p.a.** I difetti lamentati dovranno essere specificati nella "bolla di accompagnamento" a fianco dei singoli prodotti resi e saranno presi in esame esclusivamente se la bolla recherà anche i riferimenti delle forniture (numero e data delle fatture del venditore). Qualora venga accettata la validità del reclamo la garanzia del venditore non andrà oltre l'accredito o la sostituzione dei prodotti stessi. I prodotti che invece risultassero non funzionanti per cause non imputabili alla loro qualità, bensì a seguito di manomissioni, rotture, errato montaggio, eccetera, saranno rispediti in porto assegnato al committente.
- 8) Al momento dell'ordinazione deve essere sempre precisato il codice articolo completo. Questo permetterà una evasione del Vs. ordine in modo corretto. Se al posto del nostro codice articolo vi fosse una semplice descrizione, la **RMS s.p.a.** non si assume alcuna responsabilità per eventuali errori.
